EDUCATION

Bachelor

Computer Science

Texas State University

Apr 2012 - Oct 2016

SKILLS

Programming Language

Rust

Go

Python

Ruby

Solidity

JavaScript

TypeScript

Web & Mobile Technologies

React/Redux, React-Native

Beego

Gin

Martini

Node.JS

Express.JS

Django

Ruby on Rails

Asp.Net

CAREER OBJECTIVE

Organized, collaborative, and highly skilled Full stack developer with 6+ years of professional experience with web back-end and front-end development and microservices in dynamic and deadline-driven work environments.

Eager to join an excellent development team to delight its customers with magical experiences and in another hand for skill and career grows. In previous roles developed web and mobile applications and microservices.

WORK EXPERIENCE

Golang Developer

Oneplay

Jul 2022 - Aug 2022

- Taken part in development of a part of game cloud platform service for decentralized game play.
- Developed a game signaling server for connections between host.
- Customized Sunshine for transferring game play data from host computer in C/C++ and video encoding algorithm.
- Implemented webRTC Proxy part that using gRPC in Golang to convert
- Change RTP to webRTC packet type.

Senior Mobile | Golang Backend Developer

Gad.ai

Mar 2022 - Jul 2022

- Developed mobile apps on MacOS environment.
- Developed front-end parts of mobile apps with React-Native and back-end parts with Golang, Ruby on Rails and Node.js.
- Implemented several backend servers and microservices of several mobile apps and websites and big enterprises in Golang framework Gin.
- Responsible for deployment of completed projects to app store and working with clients.

Blockchain and Backend Engineer

Lukka

Sep 2020 - Mar 2022

- Participated in developments of NFT marketplace protocol like OpenSea
- Developed smart contracts and backend in Rust and Go.

Databases

PosgreSQL
MongoDB
GraphQL
RESTful API
gRPC

Blockchain

NFT
ERC20
ERC721
ERC1155
Web3
Smart Contract
Solidity

- Performed technical designs and implementation of NFT games
- Improved product quality through code reviews, writing effective unit tests.
- Developed microservices for financial platform using Golang microframework Gin.

Backend Developer

Servallt, Novi Sad

Oct 2018 - Sep 2020

- Had grown skills while working with senior web backend engineers and experienced in Ruby, Python, Golang and Rust.
- Taken part in large-scale web applications and had been responsible for backend development in Python and Go.
- Worked closely with backend developers to build RESTful APIs and microservices for big enterprises.
- Had developed websites using Ruby on Rails for backend and React for frontend.

Junior Full-Stack Web Developer

AROBS

Jan 2017 - Oct 2018

- Utilized and implemented 7+ attractive, responsive, and mobile-friendly website contexts and elements.
- Created accessible, responsive, and functional user interfaces to allow visitors on any device to have the same perfect user experience.
- Worked with backend developers to build RESTful APIs.
- Had learnt a lot from senior engineers about backend engineering with developing large-scale projects in Python and Go.

PROJECTS

Cloud game platform service : Golang + C++ (Oneplay)

Jun 2022 - Aug 2022

- Remote Game Play service for clients who have not high-spec computers to lend high-performance computers which embed high-performance GPU.

Drive-Share : React Native + Golang (RESTful API) (Gad.Ai)

Mar 2022 - July 2022

- Mobile Application for ease and comfort of clients to travel by supporting services of car lending.

Serendipity Admin Page : Golang + Vue (Gad.Ai)

Mar 2022 - Jul 2022

- Mobile App for health of people
