SUMMARY

As a dedicated Product Manager at Beeline Uzbekistan, I am committed to leveraging AI technology to drive innovative product management solutions. Currently in my final year of Software Engineering studies at IT Park University (online format), I blend academic excellence with practical experience, having founded a successful startups.

My leadership journey includes serving as President of the Students' Union and IT Community Ambassador Program Lead, where I honed my skills in balancing rigorous academics with dynamic team management. Additionally, my role as Personal Assistant to Shavkat Karimov, head of the IT Community of Uzbekistan, underscores my dedication to fostering tech innovation and community engagement.

I am passionate about combining my expertise in AI and product management to make meaningful contributions to the tech industry. My goal is to continuously innovate and lead projects that have a significant impact on the community and beyond.
