

Aleksandr Oliinyk

Senior Smart Contract Developer

+380961687902

Akademika Koroleva , Ukraine

sanechkaoleinik70@gmail.com

Work experience

12/2021 - 02/2022

Smart Contract Developer

PowerUSD, LLC(United States)

- Developed smart contracts for decentralized lending platform on Ethereum blockchain
- Designed efficient and optimized solutions to keep gas usage low
- Audited smart contracts for NTF tokens and sales on Polygon/Matic

02/2021 - 12/2021

Smart Contract Developer

Gembites(United States)

- Created Several Games Contract (Gambling games) using ERC standards which work on Ethereum and Polygon Networks and deployed those contracts by verification.
- Implemented Metamask, Torus, other wallets to increase user experiences
- Integrated Chainlink VRF for generating game random number with batching system so that users can play fair and verifiable game easily and fast.

05/2020 - 01/2021

Smart Contract Developer

Intercoin(United States)

- Created TradedTokenContract, TradingApp which work on Ethereum, Binance Smart Chain Network
- Help to solve the critical issues with smart contract developers and integrate TradingApp.
- Created a multithreaded Solidity application for retrieving data from blockchains and processing it for financial, statistical analysis

Summary

I am a professional developer with 9+years of rich experience in web & blockchain technology.

I mastered Solidity, Rust, and Web3.js skills at top level and SPECIALIZED in this ground.

The notable point is that I had done many blockchain sites and have deployed to opensea and so on.

Especially, I have strong skills in React for blockchain front-end and smart contract development.

Skills

Solidity

Rust

Web3.js

React/Web3

Node.js

Next.js

Angular

Typescript

Javascript

Python

PHP

GraphQL

C/C++/C#

03/2019 - 02/2020

Blockchain Developer

ChainCoin, LTD(Singapore)

- Wrote smart contract using Solidity and wrote xtoken.cafe using React/Web3
- Designed privacy aware ChainCoin architecture for the e-commerce implementation.
- Integrated ChainCoin interface(staking and yield farming page) using web3 with smart contracts

11/2016 - 10/2018

Senior Full-stack Developer

Ubisoft(Singapore)

- Developed full-stack web applications which processed, analyzed, and rendered data visually
- Built internal tool using Node.js to automate QA and monitoring of web app
- Focused on React.js/Gatsby.js projects

Interests

Programming, Reading Books, Thinking

Finding Solutions from complex problems, Writing

Drawing, Soccer, Tennis

Languages

Russian(Fluent)

English(*Professional Working Proficiency*)
