CAREER SUMMARY

I am a senior .NET developer with 10+ years of experience in related fields, I specialize in backend, APIs, web-services and desktop applications.

This means that I have familiarity with REST, Entity Framework, XAML, LINQ and a commitment to gaining expertise in Microsoft .NET technologies stack.

I've been developing in multinational companies(containing high-school and university) since 2007 year using SCRUM and best development practices.

I love being challenged and always trying to achieve highest level of code maintainability and extendibility.

I like to learn new technologies and I am seeking for strong project and honest people to cooperate with.

WORK EXPERIENCE

2016/06 – 2018/2

Senior .NET Developer

EffectiveSoft Ltd.

Main Activities and responsibilities

I have developed various Web/Software/Services.

- Intellexer Enterprise Solution

Technologies: .NET, Intellexer SDK

IES is a complex knowledge management system with such features as natural language search, document systematization and analytical tools. The back end of IES automatically indexes and distributes corporate documents into categories. The front end allows finding necessary documents, answers to questions with the power of semantic technologies.

- DMS Connector

Technologies: .NET, Aconex API, Documentum API, Oracle Primavera API, SharePoint API

DMS Connector is an ASP.NET application, developed by EffectiveSoft for our customer Aconex Ltd., the provider of online collaboration and project management solutions for commercial and government sectors. This web application allows different vendors to connect their in-house Document Management Systems to the customer's online platform for document and project management.

2014/11 – 2016/4
