CAREER SUMMARY

I have 10+ years experience of .net programming and my core skills contain following technologies

.Net Core, C#.Net, Winforms, WPF, WebForms, WebAPI, HTML5, Bootstrap, SSRS, C/C++, Reverse Engineering.

Programming is something I really love and enjoy doing. I develop robust desktop software, great responsive websites, optimize databases and create reports.

I communicate well and feel that it is my duty to let the client know how things are progressing. I also give constructive input but respect the client's final decisions.

I program desktop programs in C# and VB.Net (both WinForms and WPF) and websites as either ASP.Net, MVC 5 or single page Elm applications. I have worked heavily with MS SQL.

I have extensive experience writing reports for SQL Server Reporting Services(SSRS) and RDLC reports for web and desktop applications.

And reverse-engineering is one of my core skills and I have good experience with it.

I always concentrate in cooperation with other developers and good partnership with clients.

I think HONESTY is one of most important personality for a developer and trying to keep it.

I love being challenged and always trying to achieve highest level of code maintainability and extendibility.

I like to learn new technologies and I am seeking for strong projects and honest people to cooperate with.

WORK EXPERIENCE

2015/7 –2020/2

Lead Developer

tinkoff

Main activities and responsibilities

Developed and launched 2 projects. The choice of technology, writing technical documentation, development of architecture.

- Rewrite of VB6 project to .NET.

- Data sync functionality.

- Automatic update application.

- Live Protect: Developed and sent to live. Application detects file changes and starts backup application.

- Various front- and back-end projects within product development schedule.

EDUCATION & TRAINING

2007 – 2011

Bachelor of Computer Science (BCompSc.)

IT SKILLS

Programming Languages

- C/C++/C#,
- Javascript,
- T-SQL

Web

- ASP.NET MVC + Web API
- ASP.NET Core
- ASP.NET Web Forms
- Angular
- SPA
- Javascript
- jQuery

Desktop

- WinForms, WPF

Mobile

- Xamarin, MvvmCross

Data

- Entity Framework
- Entity Framework Core
- SQL Server
- MySQL
- MongoDB

Web UI

- jQuery UI
- Twitter Bootstrap
- Kendo UI
- Foundation

- CSS

- HTML

CMS

- Umbraco

VCS

- MS Team Foundation Server (TFS), SVN, Git, Jira, Redmine, Slack

DevOps

- Azure

- VSTS
