CAREER SUMMARY

I have 10+ years experiences of web/desktop application developing and my core skills contain following technologies

ASP.Net, C#.Net, WinForms, WPF, WebForms, WebAPI, Python(Django/Flask), PHP(Wordpress/Drupal/Laravel), Node.JS, Angular.JS/React.JS/Vue.JS, SSRS, C/C++, Reverse Engineering, etc.

Programming is something I really love and enjoy doing. I develop robust desktop software, great responsive websites, optimize databases and create reports.

I communicate well and feel that it is my duty to let the client know how things are progressing. I also give constructive input but respect the client's final decisions.

I have extensive experience writing reports for SQL Server Reporting Services(SSRS) and RDLC reports for web and desktop applications.

And reverse-engineering is one of my core skills and I have good experience with it.

I always concentrate in cooperation with other developers and good partnership with clients.

I think HONESTY is one of most important personality for a developer and trying to keep it.

I love being challenged and always trying to achieve highest level of code maintainability and extendibility.

I like to learn new technologies and I am seeking for strong projects and honest people to cooperate with.

WORK EXPERIENCE

2010/5 –2020/2

Senior Software Developer

Upwork Freelancer

Main activities and responsibilities

Developed so many web/desktop projects by using full-stack technologies

Worked on 36 Jobs and tracked 8000+ hours on upwork time tracker and worked also on various Fixed-Price projects.

2008/03 –2010/04

Senior Software Engineer

XunBo Co.LTD

Main activities and responsibilities

Number of various projects.

- Client app API documentation and implementation. Used by partners (Webroot)
- MS Exchange backup functionality.
- Rewrite of VB6 project to .NET.
- Data sync functionality.
- Automatic update application.
- Live Protect: Developed and sent to live. Application detects file changes and starts backup application.
- Various front- and back-end projects within product development schedule.

2007/3 –2008/01

Software Developer

HaiNa Co.Ltd.

Main activities and responsibilities

I was working on various projects, including:

developing as a sole developer a Windows Phone banking application for a major China bank;

implementing various minor and major features in a Chromium-based client and ASP.NET-based server sides of a ATM/terminal content-delivery system;

developing various minor web services as sublayers for banking systems.

EDUCATION & TRAINING

2002 – 2006

Master of Computer Applications (M.C.A.)

TSingHua University

IT SKILLS

Programming Languages

- C/C++, C#, Python, PHP, Assembly
- Javascript,
- T-SQL

Web

- ASP.NET MVC + Web API
- ASP.NET Core
- ASP.NET Web Forms
- Angular.JS/Vue.JS/React.JS
- Node.JS
- PHP (Wordpress / Drupal / Laravel)
- Python (Django/Flask)
- SPA
- Javascript
- jQuery

Desktop

- WinForms, WPF, MFC

Mobile

- Xamarin, MvvmCross

Data

- Entity Framework
- Entity Framework Core
- SQL Server
- MySQL
- MongoDB
- Postgre

Web UI

- jQuery UI
- Twitter Bootstrap
- Kendo UI
- Foundation
- CSS
- HTML

VCS

- MS Team Foundation Server (TFS), SVN, Git, Jira, Redmine, Slack

DevOps

- Azure
- AWS
- VSTS

Other Experience

- Machine Learning / Blockchain
