CAREER SUMMARY

I am a senior .NET developer with 10+ years of experience in related fields, I specialize in backend, APIs, web-services and desktop applications.

This means that I have familiarity with REST, Entity Framework, XAML, LINQ and a commitment to gaining expertise in Microsoft .NET technologies stack.

I've been developing in multinational companies since 2007 year using SCRUM and best development practices.

I love being challenged and always trying to achieve highest level of code maintainability and extendibility.

I like to learn new technologies and I am seeking for strong project and honest people to cooperate with.
