

## PERSONAL INFORMATION

Jony Hwang (前卫 黄)

Address - 37, Helong, Yanji, China

jonyhwang@hotmail.com

## CAREER SUMMARY

---

I have 10+ years of experience working with .net programming and my core skills contain following technologies

.Net Core, C#.Net, Winforms, WPF, WebForms, WebAPI, HTML5, Bootstrap, SSRS, C/C++, Reverse Engineering.

Programming is something I really love and enjoy doing. I develop robust desktop software, great responsive websites, optimize databases and create reports.

I communicate well and feel that it is my duty to let the client know how things are progressing. I also give constructive input but respect the client's final decisions.

I program desktop programs in C# and VB.Net (both WinForms and WPF) and websites as either ASP.Net, MVC 5 or single page Elm applications. I have worked heavily with MS SQL.

I have extensive experience writing reports for SQL Server Reporting Services(SSRS) and RDLC reports for web and desktop applications.

And reverse-engineering is one of my core skills and I have good experience with it.

I always concentrate in cooperation with other developers and good partnership with clients.

I think HONESTY is one of most important personality for a freelancer and trying to keep it.

I have worked at various IT companies, but currently I am freelancing.

## WORK EXPERIENCE

---

2018/4 –2020/2

Senior .Net Developer

Upwork Freelancer

Main activities and responsibilities

Developed so many web/desktop projects by using .net based technologies.

Worked on 36 Jobs and tracked 1971 hours on upwork time tracker and worked also on various Fixed-Price projects
