Elisei Leukhin

Chief Quality Officer

Казань, Республика Татарстан, Россия

Общие сведения

I'm a quality assurance manager, and I strongly believe that the quality of software stand for a high-potential business, motivates the development team, and satisfies customers.

Опыт работы

Alfa-Bank

Chief Quality Officer

августа 2021 - Present (1 год 3 месяца)

Performed audit of software quality assurance process, within SDLC.

Performed technical reviews of QAE, and as result, IDP developed. SQA team is about 38 team members.

Defined QA strategy for 2 years, based on the audit.

Gathered and presented testing metrics and testing activities, for the project to key stakeholders.

Optimized defect lifecycle and test documentation approach.

Training and performance evaluation of all QA leads.

Showed strong communication skills with all the key stakeholders to ensure the QA vision is understood and implemented correctly.

Showed excellent knowledge of Risk Management, Risk Identification, and Risk-Based Testing

Once again proven experience managing testing departments or testing functions, managing large and complex activities and processes.
