01 PROFILE

I am a passionate software engineer with over 7+ years of experience developing software under web & mobile & block and Windows environments. I am specializes in Node.js and .NET frameworks, as well as React.js, Vue.js, AngularJS, Next.js, Nuxt.js on the front-end and Express.js, PHP based frameworks such as Laravel, Yii, Zend and so on. I also have 3+ years of Blockchain development by using Web3.js, Ether.js Solidity, Rust, Smart Contract more familiar with DeFi and DApp. I hold a Master's degree in computer science and has worked with a variety of Agile teams. I communicate extremely well.

02 EMPLOYMENT HISTORY

Dec 2021 — Jul 2022

McKinney, Texas, United State

Senior Developer at ScienceSoft

- Implement Blockchain website, mobile applications, and landing pages from concept through deployment
- Deployed tokens and built several crypto games.
- Standardized all output with a new, responsive, mobile first approach and strategy
- Migrated in multi-page user experience into a single page app which improved customer engagement by 10%.
- Partnered with data science to develop front-end for a product recommendation engine that increased user time on page by 5 minutes.
- Collaborate with product team members to implement new feature developments

Technologies: Blockchain(Solidity, Smart Contract, ERC20 tokens, BEP20 tokens, ERC721 tokens), React.js, Express.js, MongoDB, Node.js, Next.js, Vue storefront

Jul 2020 — Nov 2021

Santa Clara and San Francisco, California

Freelancer at Upwork.com

I was a markup developer with 2 years of commercial experience in the field. I had worked for several international companies with eCommerce projects. I am skilled in responsive, semantic, W3C standard, cross-browser, SEO-friendly and mobile markup with different kinds of animation effects. I have an experience in converting designs to static HTML pages, solving

a lot of issues and implementing a lot of improvements for big and scale projects. Also I have strong fundamental knowledge and experience with native JavaScript, jQuery, in particular, experience of working with CMS WordPress, configuring it and making fixes to themes and plugins. Also I am more familiar with node.js based framework for backend such as Express and PHP based framework such as Laravel and Yii, and Zend etc.

Dec 2018 — Jun 2020
Los Angeles

Junior React&Blockchain Developer at Nirmata

- Built a rich SPA using React.
- Built a Blockchain website(staking, DeFi, DApp) using Solidity
- Gathered functional requirements.
- Worked as CTO in an Agile/Scrum team.
- Reviewed code and wrote unit tests.

Technologies: Ramda, NPM, Node.js, TypeScript, React.js, Vue.js, Blockchain

Dec 2016 — Nov 2018
Los Angeles

Node.js Developer (AWS) at Nirmata

- Developed with serverless Node.js and JavaScript.
- Developed architectures on top of AWS Lambda, AWS CloudFormation, and AWS S3.
- Worked on a distributed team that operated under an Agile methodology.

Technologies: JanusGraph, Titan Graph, GraphDB, Docker, Elasticsearch, AWS Lambda, Node.js
