- Prepared application code in C# programs and implemented requirements gathering functions.

EDUCATION

Bachelor's Degree in Computer Science Politecnico di Torino

09/2008 - 09/2011

Courses

- Computer Science

SKILLS

Unity 3D (Mobile, WebGL, PC, multiplayer game)

Mirror networking

UE4, 5(PC, BP, multiplayer)

Photon Engine(PUN 2, Chat, Voice)

Playfab

Unity ML agent

Version Control (Git)

Python

Django and flask backend

Web3 in Unity 3D WebGL

Moralis and Chainsafe SDK for integrating with blockchain in Unity 3D

PERSONAL PROJECTS

Zombie Hunt (03/2021 - 07/2021)

- I made P2E game integrating Metamask using Unity 3D.
- <https://drive.google.com/file/d/1Zy17gFPO00Z3FECXu0mAgTPwDJwarZar/view?usp=sharing>

Virtual Business Center (09/2021 - 05/2022)

- I made using Unity 3D.
- I used PUN 2, Photon Chat, Playfab for multiplayer
- I played Youtube video dynamically
- <http://exhibition-server.s3-website.ap-south-1.amazonaws.com/>

Spooky Hunt (06/2022 - Present)

- I'm developing P2E Unity 3D webGL game on Ergo Chain.
- I integrated Nautilus Wallet using React module
- <https://spookyergotest.netlify.app/>

Building Game Server (08/2020 - 05/2021)

- I built about 3000+ CCU game server
